

Project Initialization and Planning Phase

Date	3-7-2026
Roll ID	TYA105
Project Title	Global AI Adoption in Education: A Comprehensive Global Performance Intelligence Report
Maximum Marks	3 Marks

Project Overview

❖ Objective

To analyze global AI adoption in education using Tableau and develop interactive dashboards that provide meaningful insights into educational AI usage, regional comparisons, stakeholder engagement, and adoption trends.

❖ Scope

The project focuses on analyzing AI adoption in education using a global dataset containing **1,360 records** and **16 attributes**. It includes:

- Country-wise analysis
- Regional comparison
- AI adoption trends
- Student and Teacher AI usage
- Urban vs Rural comparison
- AI Tool comparison
- Dashboard and Story creation in Tableau

❖ Problem Statement

Description

Educational organizations and governments need a simple and interactive platform to analyze AI adoption across countries and educational institutions. Existing raw datasets do not provide meaningful insights without visualization and analysis.

❖ **Impact**

The project enables policymakers, educational institutions, and researchers to:

- Monitor AI adoption
- Compare countries and regions
- Identify adoption gaps
- Support educational planning
- Improve AI implementation strategies

❖ **Proposed Solution**

Approach

The proposed solution is to develop an interactive Tableau dashboard by:

- Collecting a global AI education dataset
- Cleaning and preprocessing the data
- Performing exploratory data analysis
- Creating meaningful visualizations
- Designing interactive dashboards
- Developing a Tableau Story
- Generating actionable insights

❖ **Key Features**

- Interactive Dashboard
- KPI Cards
- Geographic Map
- AI Adoption Trend Analysis
- Student vs Teacher Comparison
- Urban vs Rural Analysis
- Regional Comparison
- AI Tool Market Share Analysis
- AI Adoption Level Classification
- Interactive Filters (Country, Region, Year)

❖ **Resource Requirements**

➤ **Hardware**

- Laptop/Desktop
- Minimum 8 GB RAM
- Intel i5/Ryzen 5 Processor
- Internet Connection

➤ **Software**

- Tableau Public
- Microsoft Excel
- GitHub
- Windows 10/11

➤ **Dataset**

Global AI in Education Dataset (CSV)

Team Members

Add your group members' names and roles.

Member	Responsibility
Anis Atar	Data Collection, Data Cleaning, Dashboard Development
Anis Atar	Documentation
Anis Atar	Testing
Anis Atar	Report Preparation

❖ **Expected Outcome**

The project will produce:

- Interactive Tableau Dashboard
- Tableau Story
- Business Insights
- Performance Analysis
- Professional Project Report
- GitHub Repository
- Tableau Public Dashboard
